

Capturing the exquisite beauty of Australia's natural flora

is only the beginning...

Inspired by the uniqueness of our great Australian landscape, **Adam&Eve Wax** has rebranded as **Jax Wax Australia**.

Our waxes are now named after Australian wildflowers with the **introduction of two new waxes**, Australian Wattle and Daintree Blackbean.

Jax Wax Australia products are proudly manufactured in Australia featuring cutting edge formulas which are designed to provide the ultimate waxing experience in any environment.

"Australian Wattle is one of two new products being introduced into Jax Wax Australia's already popular product range."
